

## The Angel Juicer

The Angel Juicer is like the Rolls Royce of juicers on the market. Its twin-gear system puts out 3-horsepower of extracting force and delivers a truly perfect juicing mechanism.

### Snap Shot

- The Angel will juice wheatgrass and create pulp which is virtually bone dry.
- The Angel juices soft and hard fruit, vegetables, leafy greens, nuts, herbs and sprouts.
- Imagine saving 30% on your fruit/veg spend each week because that how much less you have to put through the machine for the same amount of juice.
- Cold-press turning at 82 revs per minute (RPM) - perfect for retaining enzymes and reducing oxidation (meaning your juice will stay fresher for longer and won't go brown as quickly as other juicers).
- Anti-bacterial stainless steel construction.
- Three step juicing screen system with no need to swap screens depending on what you are juicing.
- Four unique juicing parts - that's all you need to clean (30 to 90 seconds cleaning time)
- Dishwasher safe
- Incredibly easy to assemble, dismantle and clean.
- 3 HP (horsepower) of extraction power & grinding force.
- Fan-cooled with very quiet operating noise.
- 49.5cm L x 19.7cm W x 26.7cm H - 9.5kg Weight

Simplicity and the highest quality workmanship make this the ideal juicer for anybody keen on starting or continuing the benefits of fresh juicing!
